FINE PRINT

HOW THIS WAS BUILT

Pulled from the league's Yahoo archive for every season from 2010 to 2025. Teams are grouped by the Yahoo account that managed them, so name changes don't split anyone's history. Playoff seeds come from Yahoo's bracket. Non-playoff teams are ordered by record, with total points as the tiebreaker. Regular seasons ran 14 games in 2010-11, 13 in 2012-20 and 14 from 2021 on, which is why career numbers use win % and points per game.

Who's who: Some early teams were on hidden or second Yahoo accounts, identified by the commissioner. "slapped u" (2010-14) was Jason Henry, who now runs "Easy win" with his son Jordan. "S. Scott's Lazy Eye" (2010) was Shaun Moshay. "DT" (2010-12) was David Thompson. Justin Henry's 2012 "Tru's Crew" and 2021-22 "Suck my DK Metcalf" seasons count as his. "Stewie g" is Jason Griffin and his son Jason Jr. ("Wyatt"), who does most of the managing now.

"HawksToTheTop" (2012–14) is still unidentified.

* From 2017 to 2020, Jerry ran Birdman with help from Aavin, Steve's son, starting with the 2017 title season. Aavin got his own team in 2021.
